

# 1. Создал питомца с уникальным id = 113

The screenshot shows the Postman application interface. On the left, the 'Team Workspace' sidebar is visible, showing a collection named 'Petstore' with a sub-collection 'pet'. The 'pet' sub-collection contains several endpoints, including 'POST Add a new pet to the store', which is currently selected. The main workspace displays the details of this POST request. The URL is 'localhost:3000/((url))/pet'. The request body is a JSON object: 

```
{  "id": 113,  "category": {    "id": 2,    "name": "cat"  },  "name": "Gav",  "photoUrls": [    "https://hero.fandom.com/ru/wiki/%D0%9A%D0%BE%D1%82%D1%91%D0%BD%D0%BE%D0%BA_%D0%93%D0%B0%D0%B2%"  ],  "tags": [    {      "id": 3,      "name": "cat,Gav"    }  ],  "status": "sold"}
```

. The response is also shown in the 'Body' tab, displaying the same JSON object. The status is '200 OK', the time is '130 ms', and the size is '543 B'. The bottom status bar shows 'Online', 'Find and Replace', 'Console', 'Cookies', 'Capture requests', 'Bootcamp', 'Runner', 'Trash', and 'Help'.

## 6. Изменил всю информацию о созданном питомце

## 7. Нашёл питомца с изменённой информацией по id(id изменил)

The screenshot displays a Postman interface with a GET request to `{{url}}/pet/122`. A red arrow points to the URL. The 'Tests' tab is active, showing two test scripts:

```
1 pm.test('Status code is 200',function()
2 {
3   pm.response.to.have.status(200)
4 });
5
6 pm.test('Status code is 404',function()
7 {
8   pm.response.to.have.status(404)
```

The 'Body' tab shows the response in JSON format:

```
1 {
2   "id": 122,
3   "category": {
4     "id": 5,
5     "name": "dog"
6   },
7   "name": "Mia",
8   "photoUrls": [
9     "https://www.bbc.com/russian/features-42026094"
10  ],
11  "tags": [
12    {
13      "id": 8,
14      "name": "dog,Mia"
15    }
16  ],
17  "status": "available"
```

The status bar indicates: Status: 200 OK, Time: 127 ms, Size: 500 B. The 'Save Response' button is visible.

Below the first screenshot, a second screenshot shows the same JSON response in the 'Body' tab, but with the 'id' field highlighted in red. The status bar indicates: Status: 200 OK, Time: 499 ms, Size: 500 B.
